

Fc CharSetCoverage(3)

Fc CharSetCoverage(3)

**NAME**

Fc CharSetCoverage – DEPRECATED return coverage for a Unicode page

**SYNOPSIS**

#include &lt;fontconfig/fontconfig.h&gt;

**FcChar32 Fc CharSetCoverage (const Fc CharSet \*a, FcChar32page, FcChar32[8]result);****DESCRIPTION**DEPRECATED This function returns a bitmask in *result* which indicates which code points in *page* are included in *a*. **Fc CharSetCoverage** returns the next page in the charset which has any coverage.
