

FcValueEqual(3)

FcValueEqual(3)

NAME

FcValueEqual – Test two values for equality

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcBool FcValueEqual (FcValue v_a, FcValue v_b);
```

DESCRIPTION

C.compares two values. Integers and Doubles are compared as numbers; otherwise the two values have to be the same type to be considered equal. Strings are compared ignoring case.
