

NAME

Munin::Node::TLSServer – Implements the server side of the STARTTLS protocol

SYNOPSIS

```
# After receiving a STARTTLS request:
```

```
$tls = Munin::Node::TLSServer->new(...);  
$tls->start_tls();
```

METHODS**new**

```
$tls = Munin::Node::TLSServer->new(...);
```

See Munin::Node::TLS for documentation for constructor arguments.

start_tls

```
$tls->start_tls();
```

Process a STARTTLS request
