NAME

mplist_find_by_value − Find a property of a specific value in a property list.

SYNOPSIS

MPlist* **mplist_find_by_value** (**MPlist** * *plist*, void * *val*)

DESCRIPTION

Find a property of a specific value in a property list. The **mplist_find_by_value()** function searches property list **plist** from the beginning for a property whose value is **val**. If such a property is found, a sublist of **plist** whose first element is the found one is returned. Otherwise, `NULL` is returned.
