

Module::CPANTS::Kwalitee::Uses(3pm) - User Contributed Perl DocumentationModule::CPANTS::Kwalitee::Uses(3pm)

NAME

Module::CPANTS::Kwalitee::Uses – Checks which modules are used

SYNOPSIS

Check which modules are actually used in the code.

DESCRIPTION

Methods

order

Defines the order in which Kwalitee tests should be run.

Returns 100.

analyse

MCK::Uses uses Module::ExtractUse to find all use statements in code (actual code and tests).

kwalitee_indicators

Returns the Kwalitee Indicators datastructure.

- use_strict
- use_warnings
