

MojoMojo::Controller::JSON(3pm) User Contributed Perl Documentation MojoMojo::Controller::JSON(3pm)

NAME

MojoMojo::Controller::JSON – Various functions that return JSON data.

SYNOPSIS

This is the Mojo for various functions that return JSON data.

DESCRIPTION

This controller dispatches various JSON data to AJAX methods in MojoMojo. These methods will be called indirectly through JavaScript functions.

ACTIONS

tagsearch (json/tagsearch)

Backend which handles jQuery autocomplete requests for tag.

container_set_default_width (json/container_set_default_width)

Store width in session variable *container_default_width*.

container_maximize_width (json/container_maximize_width)

Set or unset session variable *maximize_width*, which is used to toggle maximum width when displaying the page.

auto

Set default view
