

MojoMojo::Controller::Jsrpc(3pm) User Contributed Perl Documentation MojoMojo::Controller::Jsrpc(3pm)

NAME

MojoMojo::Controller::Jsrpc – Various JSRPC functions.

SYNOPSIS

This is the Mojo powering our AJAX features.

DESCRIPTION

This controller dispatches various data to ajax methods inmojomomojo These methods will be called indirectly through javascript functions.

ACTIONS

render (/.jsrpc/render)

Edit uses this to get live preview. It gets some content in params->{content} and runs it through the formatter chain.

child_menu (/.jsrpc/child_menu?page_id=\$page_id)

Returns a list of children for the page given by the page_id parameter, formatted for inclusion in a vertical tree navigation menu.

diff (/.jsrpc/diff)

Loads diff on demand. Takes an absolute revision number as arg, and diffs it against the previous version.

submittag (/.jsrpc/submittag)

Add a tag through form submit

tag (/.jsrpc/tag)

Add a tag to a page. Returns a list of yours and popular tags.

untag (/.jsrpc/untag)

Remove a tag from a page. Returns a list of yours and popular tags.

imginfo (.jsrpc/imginfo)

Inline info on hover for gallery photos.

usersearch (.jsrpc/usersearch)

Backend that handles jQuery autocomplete requests for users.

set_permissions (.jsrpc/set_permissions)

Sets page permissions.

clear_permissions (.jsrpc/clear_permissions)

Clears this page permissions for a given role (making permissions inherited).

validate_perm_edit

Validates if the user is able to edit permissions and if a role was supplied.
