NAME

MojoMojo::Controller::User − Login/User Management Controller

DESCRIPTION

This controller performs user management: registration, login, logout, password recovery and profile editing.

ACTIONS

login (/.login)
Log in through the authentication system.

logout (/.logout)
Log out the user.

users (/.users)
Show a list of the active users with links to the pages they edited.

page_user
Show a user's preferences

prefs (.prefs)
Main user preferences screen.

password (.prefs/password)
Change password action.

template: user/password.tt

recover_pass
Email a user a new password

register (/.register)
Show new user registration form.

template: `user/register.tt`

is_account_taken
Test to see if a login or email is already in use.

do_register (/.register)
New user registration processing.

templates: `user/password.tt`, `user/validate.tt`

validate (/.validate)
Validation of user email. Will accept a md5_hex mailed to the user earlier. Non-validated users will only be able to log out.

reconfirm
Send the confirmation mail again to another address.

profile (.profile)
Show user profile.

editprofile
Form to edit a person's profile

do_editprofile
Apply the edits to a person's profile
