

MooseX::App::Plugin::ConfigHome(3pm) Contributed Perl DocumentatMooseX::App::Plugin::ConfigHome(3pm)

NAME

MooseX::App::Plugin::ConfigHome – Config files in users home directory

SYNOPSIS

In your base class:

```
package MyApp;  
use MooseX::App qw(ConfigHome);
```

DESCRIPTION

Works just like MooseX::App::Plugin::Config but assumes that the config file always resides in the user's home directory.

```
~/.${app-base}/config.(yaml|xml|ini|...)
```
