

MooseX::Storage::Meta::Attribute::DoNotSerialize(3pm) MooseX::Storage::Meta::Attribute::DoNotSerialize(3pm)

## NAME

MooseX::Storage::Meta::Attribute::DoNotSerialize – A custom meta-attribute to bypass serialization

## VERSION

version 0.52

## SYNOPSIS

```
package Point;
use Moose;
use MooseX::Storage;

with Storage('format' => 'JSON', 'io' => 'File');

has 'x' => (is => 'rw', isa => 'Int');
has 'y' => (is => 'rw', isa => 'Int');

has 'foo' => (
    metaclass => 'DoNotSerialize',
    is         => 'rw',
    isa        => 'CodeRef',
);

1;
```

## DESCRIPTION

Sometimes you don't want a particular attribute to be part of the serialization, in this case, you want to make sure that attribute uses this custom meta-attribute. See the SYNOPSIS for a nice example that can be easily cargo-culted.

## SUPPORT

Bugs may be submitted through the RT bug tracker <<https://rt.cpan.org/Public/Dist/Display.html?Name=MooseX-Storage>> (or bug-MooseX-Storage AT rt DOT cpan DOT org <<mailto:bug-MooseX-Storage AT rt DOT cpan DOT org>>).

There is also a mailing list available for users of this distribution, at <<http://lists.perl.org/list/moose.html>>.

There is also an irc channel available for users of this distribution, at #moose on [irc.perl.org](http://irc.perl.org) <[irc://irc.perl.org/#moose](http://irc.perl.org/#moose)>.
