

NAME

mplist_push – Add a property at the beginning of a property list.

SYNOPSIS

MList* mplist_push (**MList** * *plist*, **MSymbol** *key*, void * *val*)

DESCRIPTION

Add a property at the beginning of a property list. The **mplist_push()** function inserts at the beginning of property list **plist** a property whose key is **key** and value is **val**.

If **key** is a managing key, **val** must be a managed object. In this case, the reference count of **val** is incremented by one.

RETURN VALUE

If the operation was successful, this function returns **plist**. Otherwise, it returns **NULL**.
