

NAME

mtext_property_end – Return the end position of a text property.

SYNOPSIS

```
int mtext_property_end (MTextProperty * prop)
```

DESCRIPTION

Return the end position of a text property. The **mtext_property_end()** function returns the end position of text property **prop**. The end position is a character position of an M-text where **prop** ends. If **prop** is detached, it returns -1.
